DETAILED ACTION

This is a Notice of Allowance for application no. 10/649,743.

Allowable Subject Matter

Claims 1-7 are allowed.

After a thorough search and examination of the present application claims 1-7 are found to be in condition for allowance.

The following is an examiner's statement of reasons for allowance:

The claims are allowable over the prior art since the prior art taken individually or in combination fail to particularly disclose a data transmitting apparatus and method which transmits still image data of an object repeatedly photographed by an imager to an image management apparatus through a communication network as claimed.

The closest prior art (US Patent 6,323,897 to Kogane et al.) teaches a data transmitting apparatus and method for transmitting still image data (Abstract, Fig. 5). Kogane further teaches a controlling of the transmission based on network traffic (Col 4 Lines 51-58, Col 5 Lines 2-5 and Col 6 Lines 22-29). However, Kogane fails to teach the three distinct transmitting modes as claimed. Therefore the claims teach over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erick Rekstad whose telephone number is 571-272-7338. The examiner can normally be reached on 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mehrdad Dastouri can be reached on 571-272-7418. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
